ANNUALS

for the Garden

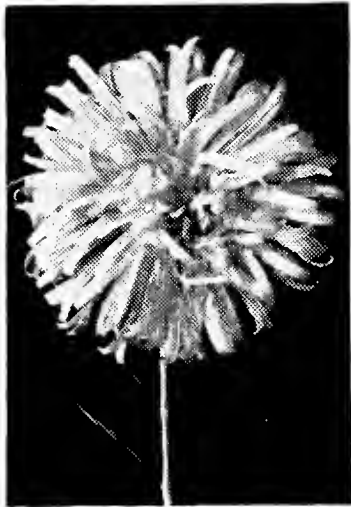

For Cut Flowers and Garden Beauty All Summer

Annuals—as the name implies—are good for only one year, but unlike perennials, bloom continuously until frost, and in many respects are more economical. Perennials alone make only a one-sided garden.

	12	100
Annual Chrysanthemums	\$0.40	\$3.00
Arctotis. New. Daisylike orange flowers, 2 in. across. Height 6 in. Potted stock...Each 20c.,	2.00

Tithonia

(Mexican Sunflower)

(Golden Flower of the Incas)

A showy Fall-flowering annual growing 5 feet tall and bearing magnificent large, brilliant orange vermillion blooms resembling a single African Marigold. Particularly valuable because it will bloom 10 days earlier than the type. Splendid for backgrounds and unexcelled for cutting.

Potted stock, each 20c., doz. \$2.00

TITHONIA

Try our Special Collection of 12 Decorative Dahlias,
\$2.50 per 12

DUTCH BULBS

We do not list the numerous varieties of these bulbs that are so essential to beautify a Spring garden. We merely make mention of the fact that our stock is widely assorted and take pride in the uniform quality and size that has been traditional with us. There are many varieties admirably suited for planting in the rock garden, however small. Bulbs ready after September 15. A price list of varieties will be gladly sent upon application.

MADONNA LILY (<i>Lilium candidum</i>). This beautiful pure white Lily is best grown in the cool climate of the north of France from where we obtain our bulbs. A strong, vigorous growth should be expected from our mammoth size bulbs. Plant them in August.....	.35	3.50
PHILIPPINENSE (Hardy Easter Lily).....	.40
REGALE. One of the most beautiful of hardy Lilies, flowers creamy white, fused with pink with a golden yellow center. Delightfully fragrant. Mammoth size bulbs.....	.50	5.00

LILIUM
REGALE

GLADIOLUS

As cut flowers, these are unsurpassed by any other Summer flower. By successive plantings they can be brought to bloom continuously throughout the Summer. Our bulbs treated for thrip and free from disease.

"Our Special" Collection of eight assorted varieties,
75c. per doz.

CANNAS

These plants, attractive for their foliage as well as their blooms, have been improved greatly of recent years. They are still one of the most desirable plants for a solid bed. We have listed the newer and more important ones in green and red-leaved varieties.

NEW VARIETIES

	Height	Each	12

the different types of bulbs should be planted*

**When ordering, please be definite; duplications of
former orders often mean delay and dissatisfaction**

AQUILEGIA

CANDYTUFT

HARDY PERENNIALS

Those marked with (*) are excellent for shady places.

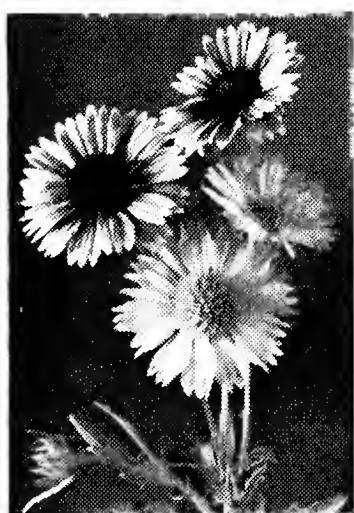

Our perennials are all well established plants, and can therefore be planted at any time without checking growth. However, the best time for planting is in the Spring when they are starting to grow. Avoid planting in wet soil; it is always better to wait until the ground is fairly dry. Most perennials, although really hardy, should have protection during the Winter—care should be taken in covering them so they will not smother. A light covering of leaves, salt hay or straw, is excellent, making sure the base of the plant is well protected.

Although perennials perhaps need less care than other plants, one will be repaid in the proportion of care he is willing to give them in the form of water in a dry time, working the soil, mulching and applications of fertilizer at regular periods.

	Each	12
Achillea. White and pink. 18 in.....	\$0.20	\$2.00
Aconitum (Monkshood). 36 in.....	.25	2.50
Alyssum saxatile. 18 in.....	.20	2.00

TENDER PLANTS FOR BEDDING

For lack of space we do not list all varieties of bedding or house plants. We have selected the more desirable ones—an inspection of our greenhouses will reveal many others of new interest and charm. Those marked (*) are most suitable for window boxes, hanging baskets, etc. Because of frost and climatic conditions, we do not advise planting these out in the open until after May 15th.

(50 plants at 100 rate)

GERANIUMS

We have our usual stock consisting of more than 40,000 well grown plants in considerable variety including vining, variegated leaved and sweet scented.

The following have the best growing habits and are the most attractive varieties and colors.

TREE GERANIUMS HELIOTROPES

Excellent for decorative purposes, for use in gardens and entrance ways—they bloom profusely all Summer. Height from 3 to 5 feet.

Kind and Color	Each	12	100

RED RADIANCE

ROSES

SOME NOTES ON THEIR CULTIVATION

Before planting, dig the bed up from 12 to 18 inches deep, incorporating an abundance of well rotted manure. When planting, insert the plant in the ground so that the roots are well covered, taking care to make the soil firm around the plant, leaving a depression around the plant to hold the water.

Roses need lots of water when dry and it is important to give the plants a thorough watering. Roses need an abundance of fertilizer. Bonemeal is very beneficial. However, Vigoro, the prepared fertilizer, is recommended because it is a complete plant food furnishing every food element required.

When syringing Roses, always do so in the morning and only when the sun is shining. This allows the foliage to become dry before the evening. Damp or wet foliage will cause black spot and mildew.

In the Fall, before the ground freezes, the Hybrid Tea Roses should have a mound of soil placed around the plants from 10 to 12 inches high. After the ground is frozen to a depth of 3 or 4 inches, the entire bed should be covered with salt hay or coarse horse manure to a depth of 6 inches. Hybrid Perpetual Roses do not require the mounding of the soil around them, but the covering of the soil with coarse manure or salt hay is beneficial for these also.

Our Roses are all pot-grown and can therefore be planted out any time without disturbing the roots.

We have about 40 of the best varieties, including the new introductions, and recommend each one for its habit of growth, hardiness, productivity, and its color.

FIELD-GROWN ROSES—HYBRID TEAS

The price is 35c., 50c. and 75c. each
\$3.50 and \$5.00 per dozen

Briarcliff. Deep rose pink center, lighter petals.

Hollywood.

Kaiserin Auguste Viktoria. Creamy white.

Joanna Hill. Clear yellow, golden heart.

Mme. Butterfly. Pink, suffused gold and apricot.

Pink Radiance. Salmon pink, yellow shading.

Premier. A big, clear rose pink flower, good stems.

Rapture. Pink, shaded yellow at base.

Talisman. Yellow, burnt orange pink scarlet.

Templar. Clear even shade of red.

KAISERIN AUGUSTE VIKTORIA

HYBRID TEA ROSES—POTTED

These varieties are outstanding in every way. We have many other varieties not listed—all with excellent habits and the same fine qualities.

The price is 50c., 75c. and \$1.00 each,
\$5.00, \$7.50 and \$10.00 per doz.

Angele Pernet. Salmon pink

Caroline Testout. Soft pink.

J. J. L. Mock. Dark pink.

Lady Alice Stanley. Light pink.

Lady Margaret Stewart. Sunflower yellow.

Margaret McGredy. Oriental red.

Mme. Edouard Herriot. Saffron yellow.

Mme. Leon Paine. Silvery salmon.

Mrs. Aaron Ward. Orange yellow.

Mrs. Lovell Swisher. Copper salmon.

Mrs. M. C. Miller. Pink.

Mrs. W. C. Egan. Two-tone pink.

Padre. Coppery scarlet.

Radiance. Pink.

Red Radiance. Red.

Rev. F. Page-Roberts. Coppery red.

Talisman. Apricot, gold and pink.

Joanna Hill. Clear yellow golden heart.

Kaiserin Auguste Viktoria. White.

Souv. de Claudius Pernet. Sunflower yellow.

PATENTED HYBRID TEAS

Countess Vandal (Patent No. 38). Brilliant pink with salmon glow. \$1.00.

Nigrette (Plant Patent No. 87). The black Rose of Sangerhausen; flower medium size, deep maroon with blackish velvet sheen and quite fragrant. \$2.00 each.

Grafted Roses insure strong growth, freer bloom

ROSES—Continued

HARDY HYBRID PERPETUAL ROSES**PLANTS ALL GRAFTED**

This class of Roses, while not so floriferous, are extremely hardy and will withstand the coldest Winter with very little protection. A few varieties herewith listed.

50c. and 75c. each, \$5.00 and \$7.50 per 12

- | | |
|---|---|
| Anna de Diesbach. Soft pink. | Juliet. Orange. |
| Black Prince. Dark crimson. | Magna Charta. Pink. |
| Captain Christy. Flesh pink | Mme. Albert Barbier. Cream yellow. |
| Frau Karl Druschki. White. | Mrs. John Laing. Soft pink. |
| General Jacqueminot. | Paul Neyron. Pink. |
| George Arends. Pink. | Prince Camille de Rohan. Crimson. |
| Harison's Yellow. Double yellow. | Ulrich Brunner. Cherry red. |
| Hugonis. Shower of gold. | |

CLIMBING ROSES

75c. and \$1.00 each, \$6.00 and \$10.00 per 12

- | | |
|--|--|
| American Beauty. Red. | Hiawatha. Ruby carmine, single. |
| American Pillar. Pink single. | Lady Gay. Dark pink. |
| Baltimore Belle. White, tinged pink. | La Reve. Yellow. |
| Bess Lovett. Red. | Paul's Scarlet Climber. |
| Chaplin's Pink Climber. A beautiful new Rose. | Primrose. Another new yellow Climbing Rose; highly recommended. |
| Dorothy Perkins. Pink. | Roserie. Pink. |
| Dorothy Perkins. White. | Shower of Gold. Yellow. |
| Dr. Van Fleet. Rich flesh pink. | Silver Moon. Silvery white. |
| Emily Gray. Yellow. | Source d'Or. Yellow. |
| Eugene Jacquet. Cherry red | Star of Persia. Yellow. |
| Excelsa. Crimson. | Tausendschoen. Pink. |
| Heart of Gold. Red, yellow center. | Tausendschoen. Red. |

DR. VAN FLEET

Grafted Roses insure strong growth, freer bloom

THE NEW DAWN (U. S. Plant Patent No. 1)

Something Entirely New . . .

The EVERBLOOMING Climbing Rose

—most important advance in Rose culture since the dissemination of the Hybrid Tea Rose. We offer two varieties which have been tried and tested—they will bloom profusely all Summer.

BLAZE

—continual blooming Paul's Scarlet Climber—is rightfully destined for tremendous popularity.

\$1.50 each

THE NEW DAWN

Granted Plant Patent No. 1. It is an everblooming Dr. Van Fleet. Flesh pink in color. A very beautiful and popular Rose.

\$1.50 each

GOLDEN CLIMBER

(Plant Patent No. 28)

\$2.00 each

BABY OR POLYANTHA ROSES

Strong, 2 year, No. 1; very fine plants

50c. each, \$5.00 per 12

Baby Doll. Red and yellow.

Cecile Brunner. Light pink.

Chatillon. Salmon pink.

Dr. Frau Erreth. Orange.

La Marne. Salmon.

Miss Edith Cavell. Scarlet.

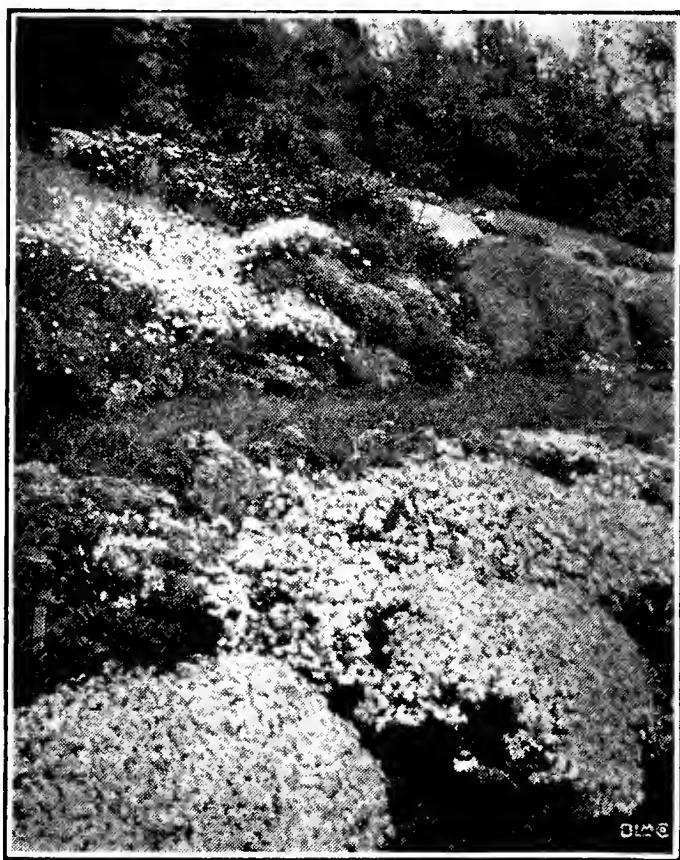

Mme. Wm. Cutbush. Salmon pink.

Mrs. George Elgar. Yellow.

Triomphe Orleanais. Ce-
rise red.

Wichuriana. For naturaliz-
ing as ground cover. **75c.**
each, \$7.50 per 12.

Also a few other fine varieties not herein listed.

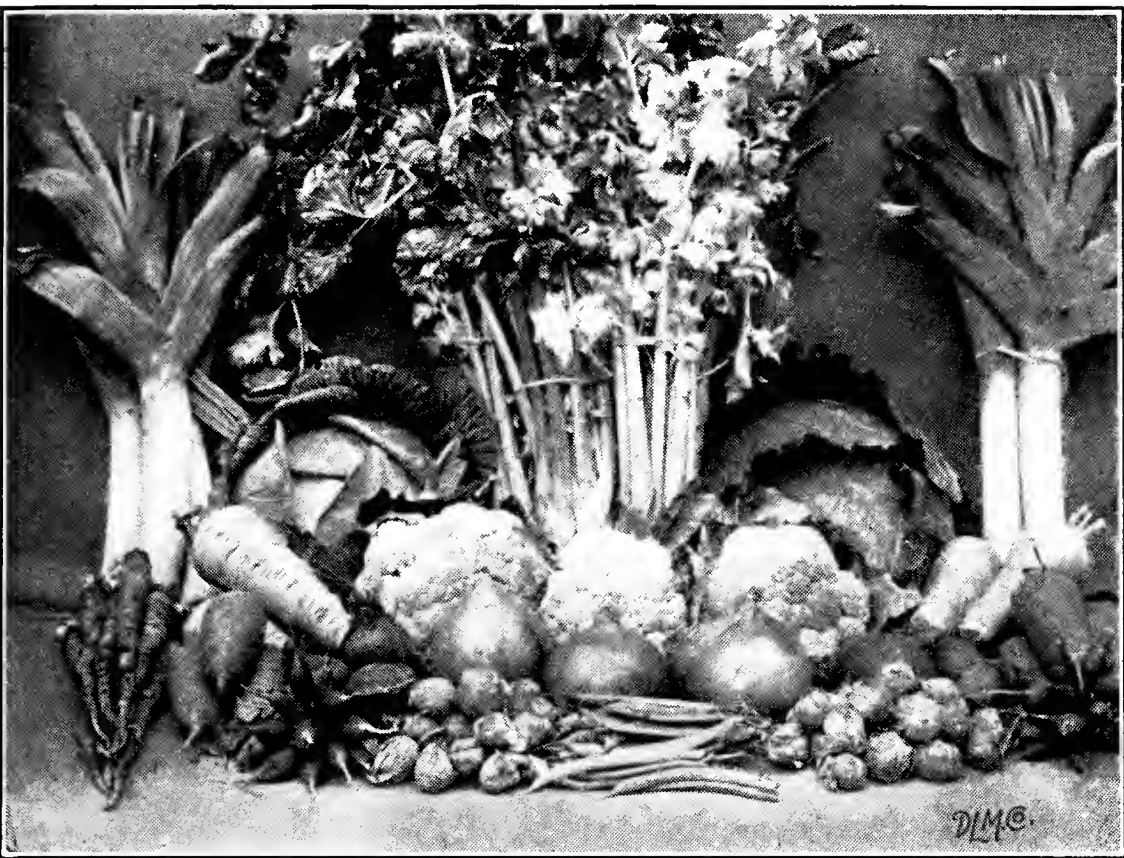

PHLOX SUBULATA IN THE ROCK GARDEN

ROCK GARDEN PLANTS

We are pleased to announce that we have the largest variety perennial and rock garden plants to be found in the Hudson valley. We have listed the more popular varieties.

Flower Seeds. In packets only.....5c. and 10c.
Vegetable Seeds. In packets only.....5c. and 10c.

*Our Pot-grown Roses can be planted out at any time
50c., 75c., and \$1.00 each*

LAWN GRASS SEED

HOW TO PREPARE A LAWN

Proper soil and a good mixture are the two essentials to be considered when making a lawn. Seed will be found to be the least expensive item. The first step is to break up the ground by ploughing or spading. Incorporate manure if available into the soil, using one load to an average 100 square yards, keeping it well near the surface. If manure is not available, a commercial fertilizer such as Vigoro is recommended—5 lbs. to 100 square feet is sufficient at first. Ground in a shady place will probably need a light application of lime. Clay soils should have a mulch of leafmold or Driconure, which is a mixture of peat moss and dehydrated cow manure.

Before seeding care should be taken to rake the surface well by removing weed roots and stones and breaking up lumps of earth. The final step before seeding is to rake the surface until it becomes smooth and fine. Seed should be sowed according to the above chart after which it should be thoroughly rolled in.

Our formula contains a balanced proportion of the following grass seeds:

Red Top, Chewings Fescue, White Clover, German Bent, Kentucky Blue Grass

Burgevin Formula for Sunny Places

(Containing 10% Bent)

Tests have shown this seed to be ideally adapted to our climate. It is special formula created after years of experience and trial. Containing no annual or quick-sprouting seeds that make only a temporary lawn, it is a mixture that actually improves from year to year. For its high quality this seed is very low priced and is equal to some brands that sell for nearly twice as much.

Lb. 45c., 2 lbs. 90c., 5 lbs. \$2.25, 10 lbs. \$4.25, 20 lbs. \$8.50

Burgevin Formula for Shady Places

Lb. 50c., 2 lbs. \$1.00, 5 lbs. \$2.40, 10 lbs. \$4.75, 20 lbs. \$9.00

Area	No. Sq. Ft.	Seed
10x10.....	100.....	1 lb.
20x10.....	200.....	2 lbs.
25x20.....	500.....	5 lbs.

<i>Vinca</i> , or <i>Periwinkle</i>20	2.00

(For shady places where grass will not grow)

NOVELTIES**CHRYSANTHEMUMS****Early October Flowering KOREAN HYBRIDS**

These new creations are especially fine for cold climates where the ordinary Chrysanthemum Winterkills. They are most attractive in color, very early blooming, easier to grow, and more profuse. The lovely new pastel shades, which simply defy accurate description or true color reproduction, suggest the Gerbera in their daintiness. Cut with short stems, they make the most charming table decorations, yet are capable of striking decorative uses if the entire branching sprays are used. They are compelling for color effect in the garden.

GLADIOLUS, "Our Special" Collection of Eight Assorted Varieties, 75c. per dozen

FERTILIZERS

PEAT MOSS

Finely granulated. This is comparatively a new product in itself. It has not much value as a fertilizer, but it is valuable when incorporated in the soil, holding moisture, and when decayed, as a substitute, for stable manure. We recommend it highly.

Bale.....\$3.50 2 bu. container.....\$1.50

BONEMEAL

2 lb. can.....	\$0.25	25 lb. bag.....	\$1.25
5 lb. can.....	.50	50 lb. bag.....	2.00
10 lb. can.....	.75	100 lb. bag.....	3.50

HYDRATED AGRICULTURAL LIME

100 lbs.....	\$0.50	25 lbs.....	\$1.00
100 lbs.....			\$2.00

LEAFMOLD

A superior product to humus—well decayed and of fine substance.

50 lbs.....	\$1.25	100 lbs.....	\$2.00
500 lbs.....			\$7.50

We have discontinued handling Humus and recommend Driconure, a combination of peat moss and cow manure—odorless. It is a real plant food beside being a soil conditioner. This product is an excellent substitute for humus and considered better.

50-lb. bags.....	Each \$3.00	5-lb. bags.....	Each \$0.50
Garden size.....			Each \$1.50

HARDWOOD ASHES

10 lbs.....	\$0.50	50 lbs.....	\$1.50
25 lbs.....	.75	100 lbs.....	2.50

BOVUNG

A Natural Organic Fertilizer

A rich manure from cows—the ideal fertilizer for new lawns and for restoring the worn-out grass plot to its original vigor.

Through a special process practically all moisture is removed from Bovung soon after it has been taken from the barns.

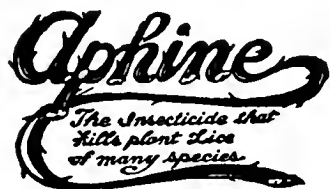

Bovung is absolutely free of all live weed seeds, it cannot bring plant diseases to your garden, and while a little goes far, no harm will occur through fertilizing your lawn or garden freely.

Bovung broadcasts as readily as grass seed and we suggest three applications upon your lawn throughout the year, in the early Spring, again in Midsummer, and finally early in the Autumn.

Bovung, too, is an excellent fertilizer for the flower and vegetable garden, being of an organic nature it brings to the soil just those materials in which the average garden soil is lacking. Bags of 50 lbs. \$1.50.

INSECTICIDES

Ant Killer—Dolco. Non-poisonous to humans and animals. This is the best ant eradicator we know of and is effective outdoors or inside. 30c. per pkge.

Aphine. For green and black aphids and red spider. Dilute 1 part to 40 parts of water. $\frac{1}{2}$ pt. 50c., pt. 75c., qt. \$1.25, gal. \$3.00.

"Black Leaf 40." For spray, for aphids on fruit trees and shrubbery. Oz. bottle 35c., 5 oz. bottle \$1.00, 2 lb. bottle \$3.10.

Double X. A new double action insect powder. Exterminates ants, roaches, chicken lice and their eggs. \$1.50 per lb.

Fungine. For fungous growth and mildew. Pt. can 75c., $\frac{1}{2}$ pt. 50c.

Mice and Mole Cereal—Dolco. Made by the same firm which makes Ant Killer and Weed Killer. A quick, sure destroyer. 35c. per pkge.

Pyrox
REG U S PAT OFF

Pyrox. Combining Bordeaux Mixture with arsenate of lead. A safe insecticide for tender foliage. Lb. 50c.

Slug Shot. For bugs that eat foliage. Pkge. 20c.

Tri-ogen. Complete protection against plant diseases and insects in the Rose garden. Small kit, \$1.50; medium kit, \$4.00.

Pomo-Green with Nicotine. The leaf green dust. Protects your Roses and other flowering plants against both insects and fungous diseases without making the treatment conspicuous. Best for your garden, too. Pomo-Green with Nicotine is the celebrated Massey Dust made more toxic and colored green.

Roses: Pomo-Green with Nicotine prevents and controls black spot, mildew or chewing insects quickly and effectively. Flowering Plants: Pomo-Green with Nicotine is effective for the control of Snapdragon rust, Carnation rust, Sweet Pea mildew, Phlox mildew, Lilac mildew and many other fungous diseases of flowering plants and shrubs. Protect new growth by dusting with Pomo-Green with Nicotine once each week throughout the growing season. 1 lb. can 75c., 5 lb. carton \$3.00.

Tobacco Soap. Dissolve in water for spraying. Also for scale on palms or other foliage plants. Cake 20c.

Tree Wound Paint. $\frac{1}{2}$ pt. 50c., pt. 75c.

Vermine. To kill maggots and insects attacking root of plants. $\frac{1}{2}$ pt. 50c., pt. 75c., qt. \$1.25.

Weed Killer. \$1.50 per gallon.
